Members of your local churches are keen to show you what it can mean to follow the life and teachings of Jesus Christ through practical work in your community, actively loving and serving you and your neighbours.

All generations are involved, and whether you are eight or eighty-eight (or older!), The local christians have a message of HOPE to share with you.

This HOPE is Jesus, who we believe to be the only son of God. It is His life, death and resurrection that gives all of us the opportunity to choose to live the life that God designed us for, with life choices based on the Bibles' teaching, following Jesus example.

So whatever we were doing that attracted your attention, we invite you to find out more at your local church and find out more about this HOPE for yourself.
