Blood Donor

Many of us have been blood donors at some time in our lives. Hospitals need a continuous supply to ensure their patients can survive modern operations, and return to full health and strength.

***Did you realise that Jesus, too,
was a blood donor?***

You gave some of your blood, probably a pint.
Jesus gave all He had.

For you, the needle was small, sharp, and nearly painless.
**For Jesus, the nails were long, dull,
and very painful.**

For you, the table or chair was relaxing, soft, and restful.
For Jesus, the cross was rough and rugged.

To you, the staff were kind and gentle.
**To Jesus, His accusers were cruel and mean.
They spit on Him. They beat Him.
They pulled the beard from His face.
They put a crown of thorns on His head.**

You probably received some sweet juice, or perhaps a cup of tea, and maybe a biscuit afterward.
Jesus was given vinegar mixed with gall.

People applaud you for your contribution.
Jesus was reviled and mocked.

Your blood has a specific type. Mine is O positive, the universal donor.
The blood of Jesus is universal, positively for all.

Your donation, at best, is temporary and may help prolong someone's life for a little longer
His blood can save all who will accept it, forever.

The Bible says that **“Without the shedding of blood, there is no forgiveness of sins.”** (1)

Why not accept the greatest gift someone can give, that they lay down their life for a friend.(2) Jesus wants you as a friend. Talk to the person who gave you this leaflet, or contact us, and we will be very happy to talk to you.
